It enables deeper understanding, critical thinking, effective communication and collaborative skills as also the development of leadership qualities, decision making and innovative thinking.

- Co-scholastic areas shall be assessed on the basis of life skills as well as attitudes and values. The above shall be evaluated and graded.

CO CURRICULAR ACTIVITIES

Performing Arts -Refining sensibilities We believe our children should open themselves to some form of art or another. To be able to explore and identify their interests we delight in presenting them with abundant opportunities to dabble in arange of art forms be it music, theatre or dance. An independent Art Studio, Music Studio, Dance Studio and Amphitheatre offer them the right mood and ambience. Experienced teachers hold their hand to guide them through the exhilarating creative process.

TOWARDS BEING SOCIALLY CONSCIOUS CITIZENS...

We are not here to make learned individuals. We are here to make responsible and compassionate citizens who give back to the society more than what they have got from it. Right from the beginning, value education, civic education and social as well as environmental awareness forms an integral part of our activities.

Field Trips and Nature Walks

The school organizes field trips and nature walks for children to help them bond with nature and its bounties. A specially planned Horticulture Zone offers them the opportunity to indulge in gardening which also has therapeutic benefits.

Social Awareness Campaigns

Children are involved in traffic and cleanliness campaigns wherein they organize, plan and design messages, and actually interact with general public to spread awareness.

Road Shows and Street Plays

These are a creative and bold medium to communicate social messages. Our children learn teamwork and leadership and presentation skills through putting up creative skits for social change.

Visit to Orphanage

In an era of advanced technology and consumerism, it is necessary to keep ourselves well grounded. Compassion and empathy for fellow beings comes through involvement with their realities. We take our children to visit orphanages to familiarize them with this reality.

Yoga and Meditation

Regular yoga and meditation steadily conditions the young mind and the subconscious to achieve harmony with one's self and with the environment. A special Yoga and Meditation Zone on the campus becomes the place for this quest.
